Summary

Experienced developer with an innate ability to integrate with development teams to deliver high quality digital products on budget and on time. Follows current user experience methodologies and practices test driven development to build reliable, scalable, and responsive web applications.

Work Experience

Cantina Consulting, Boston, MA

11/14-Present

Technical Consultant

- Lead Developer of several React and React-Native projects including project management dashboards, music festival application, and fantasy football beta application.
- User Interface (UI) Developer of FundVisualizer by Putnam Investments (2017 Media Post, Business Appy Award).
- Additional responsibilities include:
 - Delivering well-tested, documented, and consistent code to clients.
 - Collaborating with designers to transform designs into pixel perfect and responsive components.
 - Leading weekly Developers' Meeting and presenting on best-practices, e.g., "Redux-Saga: Aiming to make side effects easier and better" and "Testing React Components."
 - Interfacing with clients, generating statements of work, and estimating technical risk for potential projects.
 - Mentoring Junior Developers to excel at emerging technologies such as Angular, React, and Redux.

Boston Financial Data Services, Quincy, MA

11/13-10/14

UI Developer

- Lead Developer on two redesign projects, which implemented responsive design and extensive UX modifications based on current web standards.
- Maintained eleven enterprise-level web applications by developing new features, fixing reported bugs, and refactoring legacy code based on client needs.
- Recommended UX changes to improve application usability and implement best practices.

New Balance Athletics, Inc., Allston, MA

9/12-11/13

Brand Representative

- Recommended products, pitched brand stories, and addressed company policies/procedures with professionalism and excellent customer service to both customers and dealers.
- Collected and catalogued feedback regarding process improvements, product successes and failures, and marketplace insights for internal reporting.
- Maintained the integrity of order logistics and resolved unanticipated bottlenecks in a timely manner.

Education

BS, Management, University of Massachusetts Boston, Boston MA

9/06-5/11

- Inductee, Alpha Delta Lambda, National Honor Society for first year students
- Finalist, University Business Launch Competition
- Two-year captain, four-year member (attackman and goalie), University Lacrosse team
